SUMMARY

Innovative UI/UX Designer with 4+ years of experience (3+ years in UI/UX), bridging design and product management to deliver user-centric digital solutions. Experienced in user research, interaction design, and product strategy, with expertise in wireframing, prototyping, and data-driven decision-making. Skilled at managing end-to-end design processes, collaborating with cross-functional teams, and aligning design with business objectives to enhance engagement and usability.

EXPERIENCE

Senior UX Designer | Sept. 2025 - Current
Coforge | Toyota Project

Coforge is a global digital services and solutions provider. Currently working on Toyota's DDMS (Digital Dealer Management System) - an enterprise platform designed to streamline dealer operations, improve visibility across sales, inventory, and after-sales workflows, and empower decision-making through intuitive dashboards.

Responsibilities:

- Collaborating with cross-functional teams to enhance **usability and data visualization**.
- Creating **interactive prototypes** and refining workflows for better user experience and efficiency.
- Assisting in establishing a **design system framework** for dashboard components to ensure consistency.
- Conducting **quick user feedback sessions and heuristic reviews** to validate early design decisions.

Senior UI/UX Designer | Oct. 2022 - Sept. 2025
Wanderon Experiences Pvt. Ltd., Gurugram

WanderOn is an evolving & expanding backpacking travel community, organizes well-crafted tours for enthusiastic travelers!

Key Achievements:

- Redesigned WanderOn's website, implementing a user-centered design approach, resulting in a 112% increase in site traffic.
- Designed high-converting ad landing pages for travel destinations, driving a 127% increase in leads and 2.3x revenue growth through Google and Facebook campaigns.
- Led the UI/UX design for multiple internal dashboards (Sales, Ops, and Lead Management), increasing process efficiency by 50%.
- Conducted user research and A/B testing, improving product decisions and enhancing engagement by 40%.
- Successfully managed design requirements for cross-functional teams, ensuring alignment with business objectives and maintaining brand consistency.

Responsibilities:

- Led website design and UX optimization, reducing bounce rates and increasing engagement through continuous improvements.
- Designed and enhanced internal dashboards (sales, ops, and Leads management), improving usability and operational efficiency.
- Developed a structured UX research framework, utilizing A/B testing, heatmaps, and analytics to refine user interactions.
- Created and maintained a scalable design system, ensuring visual consistency and efficiency across multiple platforms.
- Designed high-converting Ad landing pages for marketing campaigns, driving user acquisition and engagement.
- Established emailer journeys for website visitors, increasing retention and conversion rates through personalized user flows.
- Managed cross-functional design requirements, ensuring on-time delivery and seamless collaboration between teams.
- Conducted usability audits and heuristic evaluations, identifying friction points and streamlining user workflows.
- Kept up with industry trends to future-proof the website and dashboard designs.

Awards & Recognition:

- Received **"Imagination in Action"** Award (AGM 2025) for driving UX innovation and enhancing user engagement.
- Awarded "**Brilliant Beginner - Feb. 2023**" for outstanding contributions in design and creativity.

June 2021 - July 2022

Motion Graphics Designer

Bestie Inc. (Canada-based Youtube Channel | 4+ Million Subs.)

Responsibilities:

- Created visually engaging motion graphics and animations that enhanced storytelling and viewer engagement.
- Collaborated with directors and creative teams to develop compelling visual narratives aligned with the brand's content strategy.
- Designed and animated graphics using Adobe After Effects, Premiere Pro, Illustrator, and Photoshop to bring ideas to life.
